replacement is needed.

Weight and dimensions

- Dimensions brush head packaging: 21.6 h x 6.5 w x 4.1 d cm
- Weight brush head packaging: 0.057 kg

Highlights

Fits the shape of your teeth

The scalloped pattern along the length of the brush head is ergonomically designed to follow teeth topography, maximising the surface area cleaned, and adheres to the natural shape of your teeth.

Brush head easily screws on

Screw the brush head nut clockwise until it's firmly tightened. If the brush head rattles during use, tighten the nut further.

Reminder bristles

Reminder bristles let you know when to replace the brush head. After three months of normal use bristles exhibit fatigue, and brush heads are less effective. Replace your brush head every 3 months.

Fits Advance, Elite, Essence

Now Advance users can also enjoy the performance of the e-series brush head! Fits Elite, Essence, Advance and Xtreme handles.
